Special District Election Canceled

The May 2nd, SVSD Special District Election has been canceled. We had two positions open and two candidates submitted their names for nomination by the deadline.

The following individuals make up our Board: President

- Dan March, Vice President - Josh Cook, Treasurer - Chris Kampmann, Secretary - Glen LaVanchy, and Director - Ryan Freeman.

Annual Payment Results

Thank you to the over 2600 customers who took advantage and received one month of free service as a result of participating in our annual payment program. This opportunity is an option for all customers each year in January, with the first quarter billing. Take advantage of this opportunity by placing a calendar reminder for next January and receive a month of free service by prepaying your sewer bill for the year!

Plant Expansion

The treatment plant expansion is coming to an end. The District, Engineer HDR, and Contractor Archer Western are wrapping up a 2-year project upgrading the solids processing, hydraulic and treatment processes.

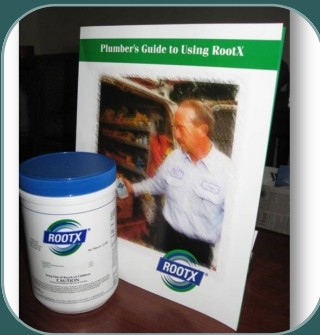

District staff are now optimizing the processes and getting accustomed to the new normal of a larger capacity plant. Call or visit us online to learn more about water treatment and renewal.

Interested in a group tour? Please contact the Plant Manager at **(303) 776-4639**. We can accommodate school groups, civic groups, and any interested residents.

The St. San Plan

St. Vrain Sanitation District sells Root-X at a reduced rate of \$10.00. If you are interested or have questions about how it works, please stop by the office.

*Note: We do not keep cash on hand to make change.

BOARD MEETS 9:00 AM
3RD WEDNESDAY OF
EACH MONTH, UNLESS
OTHERWISE POSTED.

Time of year to use Root -X

If you live in the older areas of Frederick, Firestone, or Dacono, your sewer service line probably looks like the pictures shown below. This is especially true in sewer lines constructed with clay tile pipe. The sewer line from the house to the main line is the responsibility of the property owner. Over time, roots may plug the line and if left untreated it may cause the line to break.

If you have ever had a slow or stopped up drain line and suspect roots, St. Vrain Sanitation District recommends cutting the roots, and then applying a product called Root-X. This product is designed to remove the roots from your sewer service line for up to 12 months without harming trees or shrubs. It won't fix your service line but may prolong its life and prevent costly backups and line cleaning bills.

St. Vrain Sanitation District sells **Root-X** at a reduced rate of \$10.00. If you are interested or have questions about how it works, please contact the District at (303) 776-9570 or stop by the office at 11307 Business Park Circle in Firestone to purchase the product.

SVSD Celebrates its 2nd Annual Safety Week

SVSD's 2nd Annual Safety Week will be **April 10 – 14th, 2023**. The staff at SVSD and its business partners take this opportunity to recommit to sending every worker home safely each day. This year's theme is "Safety Builds Trust." Our efforts raise awareness about the importance of safety by implementing and abiding by safety policies keeping our staff and the public safe.

Our Mission:

To serve the present and the future sewage treatment needs of our customers in an efficient, cost effective, and environmentally responsible manner.
